CLEAN TECHNOLOGY

Sunlight Group Hldg Ltd (the “Company”) is pleased to announce that its wholly-owned subsidiary, Sunlight Electrical Pte Ltd (“Sunlight”) has undertaken new initiatives to move into the clean technology arena by developing renewable and alternative power generation technologies for the industry. Sunlight has obtained a technology innovation project (TIP) grant funded from Spring Singapore to develop the technology capability and research and development expertise in the area of fuel cells.

In association with one of the leading proton exchange membrane fuel cell companies, Ballard Power Systems Inc., Canada, Sunlight plans to develop three systems of 3KW power, running on methanol fuel and concentrating on its proven success of system integration in electrical power distribution. The systems are designed for remote power application and are made to be a quieter and cleaner solution to existing generator sets.

The above initiative is not expected to have any material effect on the earnings per share or the net tangible assets per share of the Group for the current financial year ending 31 March 2012.

None of the directors or substantial shareholders of the Company has any direct or indirect interest in the aforesaid initiative.

By Order of the Board

Ong Bee Hoon
Company Secretary

6 March 2012
